The complete solution for your parking management

Bespoke, low maintenance and fully digital – discover our parking management technology. Bring more customers into your parking facilities with the +gate Parking Solutions comprehensive solution.

Digital parking management offers plenty of options for running your parking facilities in a sustainable and efficient manner. These include ticketless and cashless solutions along with automatic registration plate recognition. We can help shape the future of your parking space management with +gate Parking Solutions and offer everything from a single source, resulting in cost-effective parking management.

High quality standard

Thanks to exclusive partnerships for our research and development, we are setting new standards while simultaneously reinforcing the high quality standards of our parking management technology. Our partners:

// Designa, the global leader in fully automated parking systems

// PKE, the leading provider of security and communication technology in Europe

Working together to produce high-quality, innovative, German-made parking management technology and hardware.

Our solution

As we strive to provide you with the perfect solution for your parking space management needs, we have put together a comprehensive bundle of services ranging from hardware through to operation and service. The result: +gate Parking Solutions. A bespoke service package that meets all current market requirements.
